

## CROSS POINT CHURCH

*Pointing to the cross  
& carrying ours*

January 9, 2014

To Whom It May Concern,

Cross Point Church has been involved in missions in Panama among the Ngobe Indians for some time now. A few years ago, seeing the need to help train indigenous leaders to carry out the Kingdom work among their people, we were very glad to come into contact with Jim Wilson and IBAC. We have now been partnered with IBAC since 2010, working to equip pastors and leaders among the Ngobe Indians to lead healthy churches and continue to press on planting churches in unreached villages.

It has been a great collaboration working with IBAC, under the leadership of Jim Wilson. The strategy is proven. The curriculum is solid. And the dedication and love for Jesus from the IBAC team is genuine.

Cross Point looks forward to continuing to work with IBAC in the coming years. And I highly recommend that other North American churches get on board with IBAC and the mission of training and equipping Latin American pastors and disciples.

Sincerely,

todd calaway  
lead pastor
